

DC SOLUTIONS INC.

the

MEGASLIDE X

Next Generation Commercial Duty Slide Gate Operator

***NO POWER?
NO PROBLEM!***

STANDARD FEATURES

- ***BUILT IN BATTERY BACKUP POWER SOURCE***
- ***POWERFULL HIGH TORQUE ½ HP 24VDC MOTOR***
- ***SOFT START & STOP MOTION CONTROL***
- ***IRD SENSES OPEN AND CLOSE OBSTRUCTIONS***
- ***FULL DC OPERATION ON AC POWER FAIL or***
- ***AUTO OPEN WITH 15 SECOND DELAY***
- ***ANTI-TAIL GATE WITH QUICK CLOSE FEATURE***

MEGA SLIDE-X

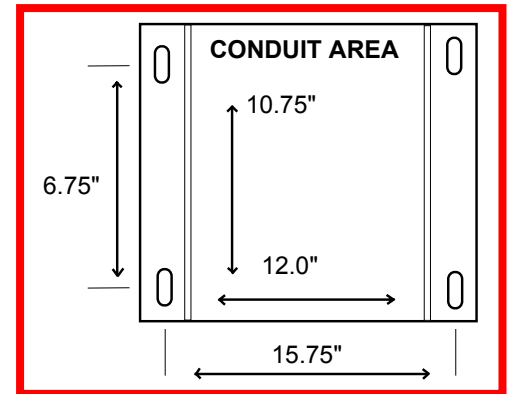

COMMERCIAL DUTY SLIDE GATE OPERATOR

The **MEGA SLIDE-X** by DC SOLUTIONS, INC. was made to be unique in the industry through innovative design and solid engineering. It's single State of the Art universal electronics control board eliminates the need for motor relays and contactors. The unit's full service controller is capable of accepting inputs from telephone entry, loop detectors, card readers, push buttons, radio controls, etc... The Mega Slide-X includes built in regulated 24VDC backed-up power to run low voltage accessories (detectors, radio receivers, card readers, mag-lock). Should AC power fail, the unit can run on battery power or be set to auto-open with a 15 second delay. In the unlikely event the unit should be rendered inoperable (fire, flood, lightning), the unit can be pushed open by simply turning off a switch (no chain drops, or dangerous hand cranks). Finally, its rugged modern design and cutting edge technology will make the MEGA SLIDE-X the perfect choice for all your commercial slide gate applications.

FULL TIME BATTERY BACKUP!

LARGE EASY ACCESS FOR CONDUITS

UL-325 UL-991

CLASS 1, 2, 3, 4

DESIGN FEATURES

- UNIVERSAL CONTROLLER WITH 8 FUNCTION INPUTS
- MICROPROCESSOR (RISC) ELECTRONICS SYSTEM
- DYNAMIC MOTOR BRAKING ELIMINATES GATE COAST
- RIGHT OR LEFT HANDED OPERATION & MASTER/SLAVE
- ANTI-TAILGATE / QUICK CLOSE FEATURE
- ABILITY TO AUTO OPEN WHEN POWER FAILS
- TRANZORB SURGE PROTECTION ON INPUTS
- CLOSING TIMER ADJUSTABLE 1-33 SECONDS
- HIGH TRAFFIC COMMERCIAL DUTY
- PULSE OPEN / CLOSE FOR RESIDENTIAL USE
- LARGE CABINET FOR DETECTORS, BATTERIES, ETC...
- REGULATED 24VDC 500ma ACCESSORY POWER
- SEQUENCE / INTERLOCKS WITH MEGA BARRIER GATES

SPECIFICATIONS

- HIGH TORQUE 1/2 HP 24 VDC MOTOR
- 110 / 220 VAC AT 4 / 2 AMPS MAX, 50/60 HZ (OR SOLAR)
- REGULATED 24VDC 500ma ACCESSORY POWER
- BATTERY BACKUP FOR ACCESSORY POWER
- PRECISION LIMIT SWITCH ASSEMBLY
- CONTINUOUS DUTY (FREE MOVING LEVEL GATE)
- HEAVY DUTY SIZE 60 GEAR REDUCER
- MAX. 1000 LBS AT 32 FT (FREE ROLLING-LEVEL)
- COVER: DARK GREY HIGH IMPACT POLYETHELENE
- CHASSIS: 1/4 INCH GOLD ZINC PLATED STEEL
- SLOTTED HOLES IN FRAME FOR EASY MOUNTING
- 20 FT. NICKEL PLATED RUST RESISTANT CHAIN
- PHYSICAL: "24 H, 20 "W, 21"D. WEIGHT 105 LBS
- CONVENIENT DUPLEX OUTLET (120 VAC)

DISTRIBUTED BY:

LIMITED WARRANTY
DC SOLUTIONS, INC. WARRANTS ITS GATE OPERATORS AGAINST DEFECTS IN MATERIALS AND WORKMANSHIP FOR 10 YEARS ON THE POLYETHELENE COVER & STEEL FRAME (CORROSION EXCLUDED), 2 YEARS ON THE ELECTRONICS & MECHANISMS. A DETAILED DECLARATION WITH TERMS AND EXCLUSIONS IS AVAILABLE UPON REQUEST.

INCLUDES ABILITY TO INTERLOCK WITH MEGA ARM BARRIER GATES
(REQUIRES TWO 7 OR 10 AMP BATTERIES-NOT INCLUDED)
