

NEW from USAutomatic!

Nexx Gate Smart Phone App

For operation of all
USAutomatic gate
operators from Wifi
and Bluetooth

USAutomatic is proud to announce the sale of our Nexx Gate smart phone app.

This is a weather-resistant companion device that works with all USAutomatic gate openers equipped with the latest UL 325 obstruction sensing devices. The Nexx Gate App allows up to eleven users to securely open, close, and monitor their gate from anywhere in the world.

It is in stock and can be ordered immediately from Sales@USAutomaticGateOpeners.com

Part number: 030223

For solar installations we recommend a 20 watt solar panel. (USAutomatic part # 520030)

FEATURES INCLUDE:

- Shows gate open/close status
- No subscription fees
- Easy to share by authorizing up to 10 secondary users.
- History log shows times of gate operations, and who did the operation.
- Scheduler allows programming of both gate open and gate close.
- Notification sent if gate stays open longer than a programmed time period
- Works with Alexa, Google Assistant, Smart Things, and Siri.
